

# Rently Keyless Smart Home

[www.RentlyKeyless.com](http://www.RentlyKeyless.com)

Rently Keyless smart-home technology is revolutionizing how renters secure, access and manage their home. Rently Keyless allows renters to remotely control locks, thermostats and other smart home devices right from your smart-phone...no w-fi required!

## Benefits

*Control your home...  
...right from your smart-phone.*

- Eliminate keys.
- Provide instant guest access.
- Reduce utility bills.
- Enhance property security.
- No wi-fi required.

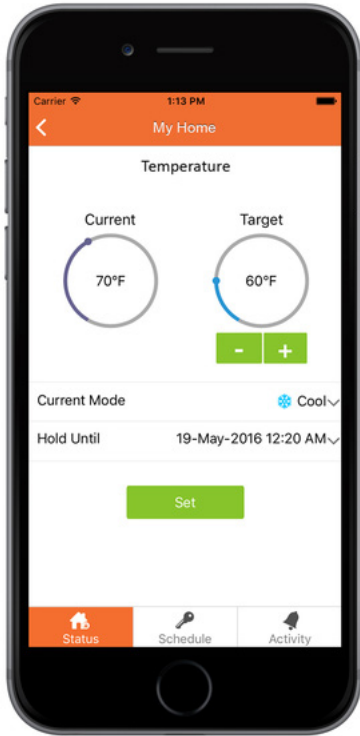

## Rently Keyless Features

• **Eliminate Keys.** Rently Keyless replaces antiquated key systems with unique durational codes. Never worry about a lost key or lockout.

• **Unique Guest Codes.** Expecting a visitor? With Rently Keyless, instantly provide guests, dog-walkers or family members with unique durational codes.

• **Remote lock and unlock.** With Rently Keyless, never wonder if you left a door unlocked. Simply open the app and remotely lock from anywhere.

- **Thermostat Control.** Heating & AC bills spiraling out of control? Control heating, air conditioning and HVAC schedules right from your smart-phone.

- **Lighting.** Switch on, off or dim lighting instantly while also reducing utility bills.

- **Activity Log & Alerts.** Real time access logs, push notifications and security schedules ensure you know exactly when someone has entered your home, 24/7.

- **Tri-Band Technology.** Rently Keyless uses ethernet, wi-fi and cellular to ensure that your smart home stays functional, even if your wi-fi is down.

## Rently Keyless Hardware

Rently Keyless can be tailored to meet your needs. Incorporate locks, thermostats, lighting sensors and more on your home!

Locks

Thermostats

Lighting

Sensors
